Disclaimer

This presentation (the "**Presentation**") has been prepared by Bank Millennium S.A. (the "**Bank**"). This presentation should not be treated as a part of any invitation or offer to sell any securities, invest or deal in or a solicitation of an offer to purchase any securities or recommendation to conclude any transaction, in particular with respect to securities of the Bank.

Bank's disclosure of the data included in this Presentation is not a breach of law for listed companies, in particular for companies listed on the Warsaw Stock Exchange. The information provided herein was included in current or periodic reports published by the Bank or is additional information that is not required to be reported by the Bank as a public company.

In no event may the content of this Presentation be construed as any type of explicit or implicit representation or warranty made by the Bank or its representatives. Likewise, neither the Bank nor any of its representatives shall be liable in any respect whatsoever (whether in negligence or otherwise) for any loss or damage that may arise from the use of this Presentation or of any information contained herein or otherwise arising in connection with this Presentation.

Financial data presented hereby is based on the consolidated Bank Millennium Group level and is consistent with published Financial Statements of the Group (available on Bank's website at www.bankmillennium.pl). The only exception are **pro-forma data** described below.

From 1st January 2006, the Bank started to treat under hedge accounting principles the combination of mortgage floating rate foreign currency loans, floating rate PLN deposits and related cross currency interest rate swaps. From 1st April 2009, the Bank extended hedge accounting principles to FX swaps. According to the accounting principles the margin from these operations is reflected in Net Interest Income. However, as this hedge accounting does not cover all the portfolio denominated in foreign currency, the Bank provides **pro-forma data**. The pro-forma statement presents all interests from derivatives included in Net Interest Income, which in the Bank's view allows better understanding of the economic evolution of this item.

The matters discussed in this presentation include **forward-looking statements** and these statements are based on management's current expectations and beliefs and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

The Bank does not undertake to publish any updates, modifications or revisions of the information, data or statements contained herein should there be any change in the strategy or intentions of the Bank, or should facts or events occur that affect the Bank's strategy or intentions, unless such reporting obligations arises under applicable laws and regulations.

* Includes Bank's bonds and debt securities sold to individuals, repo transactions with customers and securitisation of leasing assets

Profitability

Net profit (PLN million)

- Net Profit reached PLN 346 million in 1-3Q'12 and was 1.4% higher than in the corresponding period of last year. 3Q net profit reached PLN 125 million.

- Profit growth achieved thanks to strict cost control and operating income increase and despite higher risk provisions.

- Total operating income* for 1-3Q'12 recorded PLN 1437 million and increased by 2.6% y/y. The quarterly value of operating income in 3Q'12 was on similar level as in the previous quarter.

- ROE improved quarter-on-quarter to 10.7%.

Operating Income* (PLN million)

* Including net other operating income and cost
 ** Net Interest Income + Net Commissions Income

Net Interest Income

Net Interest Income* (PLN million)

NIM * evolution (%)

- 1-3Q 2012 Net Interest Income* higher by 3.3% compared to corresponding period of 2011.
- In quarterly terms Net Interest Income* slightly decreased due to lower NIM.
- Net Interest Margin in 3Q'12 influenced by competitive deposit market and dropping market rates.
- Net Interest Margin in 1-3Q'12 was close to 2.5%.

* Pro-forma data. Margin from all derivatives, including those hedging FX denominated loan portfolio, is presented in Net Interest Income, whereas in accounting terms part of this margin (PLN 40.7 million in 1-3Q'12 and PLN 46.0 million in 1-3Q'11) is presented in Result on Financial Operations.

Non-interest Income

Net Commission Income (PLN million)

- Net Commissions in 3Q'12 came back to the previously observed level (after exceptionally higher 2Q'12 level). Slightly lower year-to-date values compared to 1-3Q'11 (-4.5%). Positive trends in lending and bancassurance commissions.
- Other non-interest income* for 1-3Q'12 grew 34% y/y thanks to better FX income and also better result on fixed income instruments in 3Q.

Major awards for high quality and technology

Bank Millennium „Friendly Bank by Newsweek 2012”

- Bank Millennium has been recognised as **the best and friendliest Internet bank in Poland** in Newsweek’s “Friendly Bank - Internet Banking” ranking. The Bank’s move up from the 3rd place last to No. 1 in the current year’s ranking resulted from best scores in most of the evaluated categories: communication channels, operations channels, quality of service, customer acquisition and retention. In the overall ranking „Friendly Bank - Individuals” Bank Millennium took second place.

Bank Millennium Global Finance

- Bank Millennium once again took the first place in category **The Best Internet Bank for Clients** and Bank offering the best service of deposits, loans and investment products in Central and Eastern Europe. Prizes were awarded by an independent financial magazine *Global Finance*.

Bank Millennium „Medal-winning” by Wprost weekly

- Bank Millennium has been ranked by *Wprost* weekly among “Medal-winning Banks” - **top-scoring institutions in the Service Quality Programme**. Best banks were selected on the basis of data about changes, which they implemented in the course of the last three years. The areas assessed were the banks’ offer, organisation and service time.

Bank Millennium Second best bank for companies

- Award in ranking „The best bank for companies” by *Forbes* monthly. With four stars Bank Millennium has been ranked **second** by Forbes Magazine for the **best bank offer to companies**. The Magazine assessed costs of service baskets offered to two typical clients representing SME segment as well as deposits and credits offered to them. Additional categories included: offer diversity and service quality.

Customer funds

* include 3rd parties mutual funds sold to Millennium affluent Customers

** all investment products vs. total market (without private equity funds)

- Strong growth of deposits by 12.6% y/y additionally supported by investment product growth (+23.9% y/y) gave a combined customer funds increase by 13.6% y/y.
- In quarterly terms total customer funds grew by 2.9%, of which deposits by 3.5%.
- Strong rebound in retail deposits (+6.2% q/q), driven by dedicated sales focus, price adjustments and selected products campaigns.

Loan portfolio

Loan Portfolio of the Group (net) (PLN million)

Structure of loan portfolio (%)

- Loan portfolio decreased by 1.3% y/y and 1.7% q/q due to Polish zloty appreciation.
- Without FX effect, the total portfolio would grow 2.2% yearly and 0.6% quarterly.
- Structure of total credit balance exposure shows big majority of loans to retail customers.

Retail business results - accounts and cards

- High annual growth of 187,000 in the number of individuals' current accounts (+34,000 just in 3Q'12), strongly correlated with „Dobre Konto” campaign showing already 335,000 accounts.

Number of Payment Cards (tsd)

- Sustained improvement of cross-selling ratio to 3.82 products-per-customer compared to 3.69 in September'11.
- Continued growth of payment cards showing 164,000 of annual increase (+27,000 just in 3Q); the result strongly supported by the continued current account campaign.

Exports seems to be less vulnerable to the recession in the EMU, while good financial result of companies helps to invest in fixed assets

Export dynamics to EU and non-EU markets [% yoy]

Companies investments in fixed assets [% yoy]

Financial results of Polish companies

Comments

- Polish companies increase sales to the non-UE markets to be less vulnerable to a recession in the Eurozone
- Corporate sector continues investments in fixed assets to improve and modernize its capacity
- Financial results of companies are resilient to economic slowdown in the Eurozone

Gradual PLN appreciation, decrease in inflation & interest rates in 2013 should support consumption and households' loans

Growth rate of loans [%]

NPL ratios for the Polish banking sector [%]

Interest rates and inflation in Poland [%]

Comments

- Consumer loans are expected to accelerate slightly, while growth of corporate loans should remain moderate
- Quality of credit portfolio is expected to remain stable
- Lower inflation and lower interest rates in coming quarters should support consumption and consumer loans but might put downward pressure on deposit margin

For the last 10 years Bank Millennium has been improving its structure and potential for further business growth

New image-building campaign

NEW IMAGE-BUILDING CAMPAIGN

Bank Millennium launched recently a new **image-building campaign** to emphasise the key values, which the brand stands for: **a modern brand built on such traditional values, as reliability, competence and understanding the Customer.** The campaign is opening a new stage in the Bank's communication. It was preceded by a research on customers' perception on Millennium and other banks. The research showed that for some Customers traditional relationships with a banker and proximity of the branch continue to matter. For most customers availability of the bank's services online as well as the possibility to get things done without visiting the bank are a prerequisite today.

Bank Millennium understands both groups - it delivers traditional banking in a modern format.
