

CHANGES TO MILLENET LOGIN PAGE

For your convenience and increased safety, we have improved the design of the internet banking login page and introduced several upgrades.

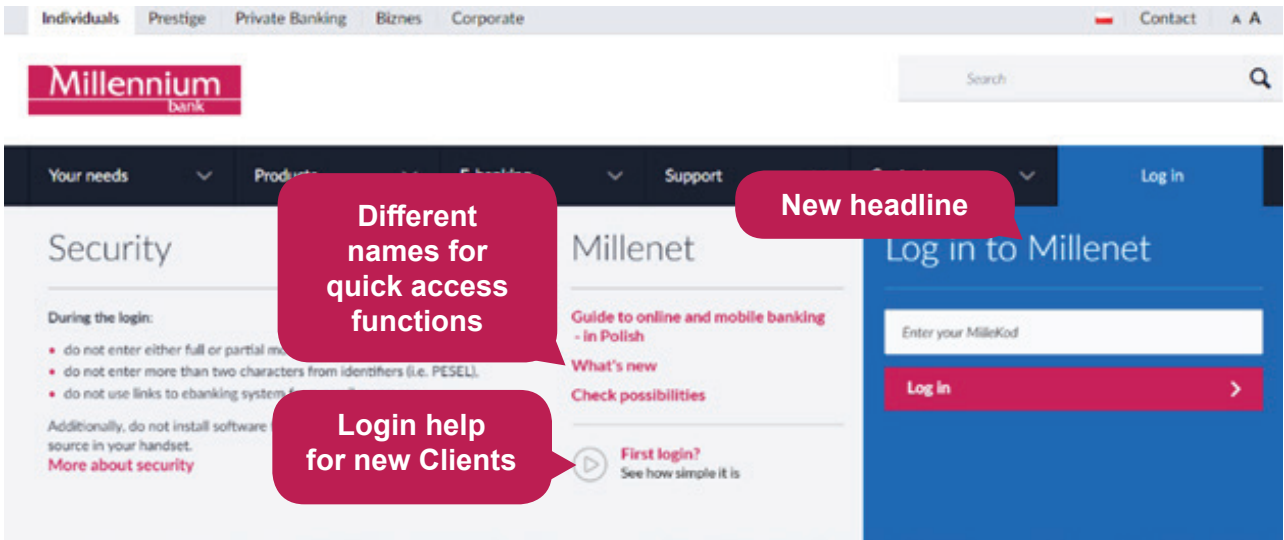

What's new in a nutshell?

- easier access to login help for new and existing Clients
- assistance in setting a new password thanks to password strength meter
- clear error messages that will allow you to avoid locking your access accidentally by entering incorrect login data

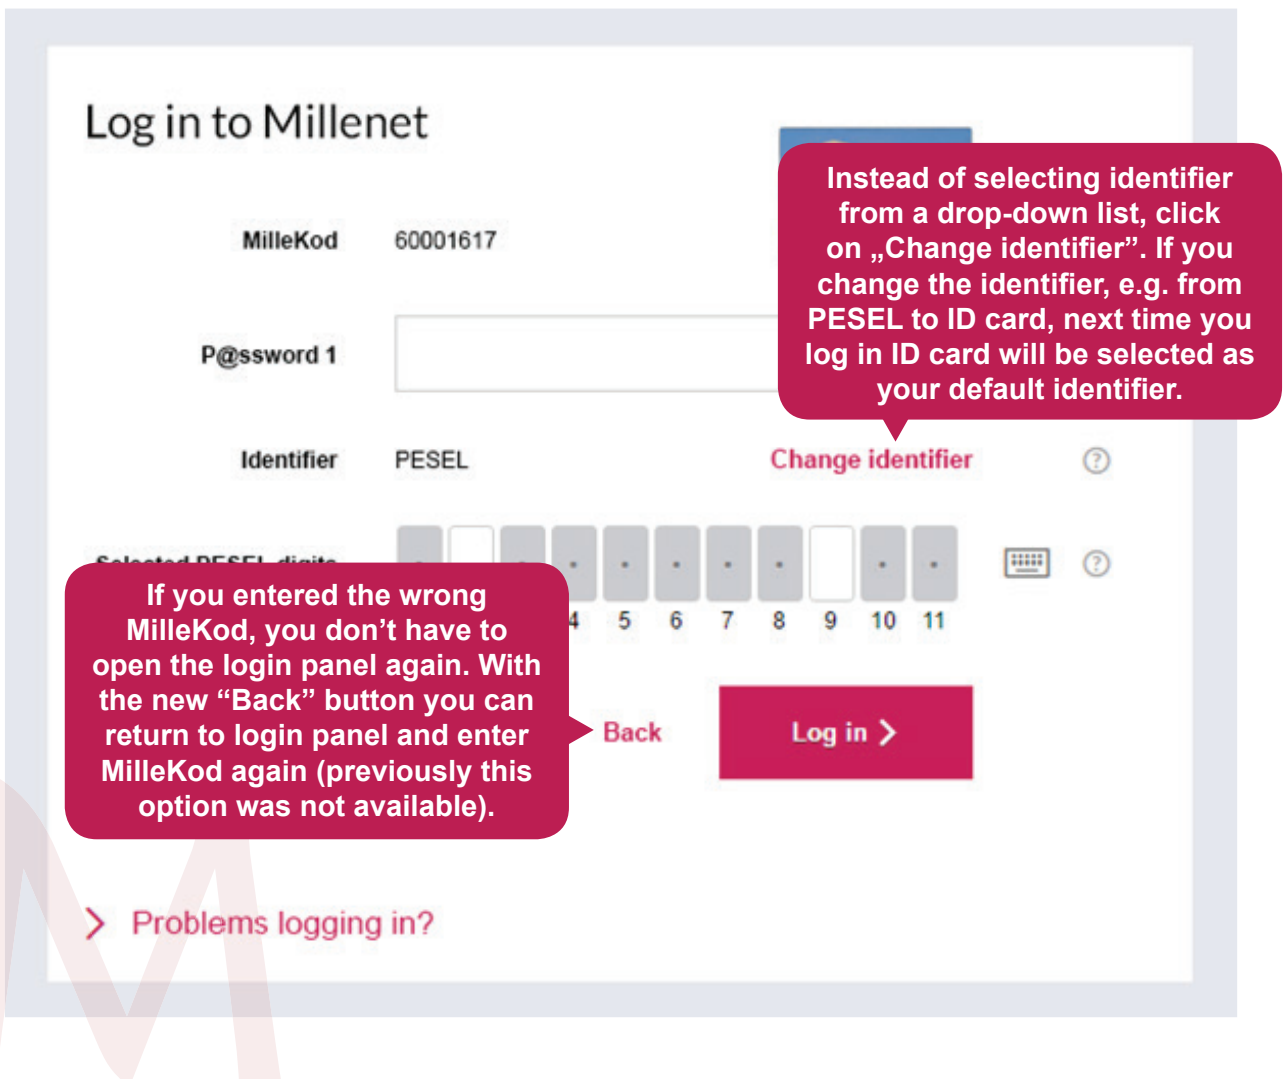

We invite you to check the details of the changes below.

1. Changes to login panel on Bank Millennium home page

2. Changes to identifier selection method, new “Back” button

3. Login help

Log in to Millenet

MilleKod 60001617

P@ssword 1

Identifier PESEL [Change identifier](#)

Selected PESEL digits

1 2 3 4 5 6 7 8 9 10 11

[Back](#) [Log in >](#)

[> Problems logging in?](#)

We've added new hints, labelled with a question mark icon , to provide you with a detailed explanation of every field.

We've facilitated the access to login help. By clicking on this link you'll learn what to do if you forget your MilleKod or block P@ssword 1.

4. Password strength meter

Log in to Millenet

MilleKod 60001617

Temporary P@ssword 1

New P@ssword 1

From now on, every time you change P@ssword 1 you can take advantage of the password strength meter. The meter will tell you if your new combination of digits is safe and long enough.

P@ssword 1 must be 8-digits long and difficult to disclose. Do not use simple set of digits, your birth date or phone number.

Strong

5. New failed login attempt messages

Log in to Millenet

MilleKod

 

 MilleKod or your own name for MilleKod is incorrect.
Allowed characters: A-Z, a-z, 0-9

We'll inform you if you use any special characters, e.g. %, \$, !, @, /, while entering MilleKod.

Log in >

> Problems logging in?

 **Login attempt failed**

MilleKod, P@ssword 1 or selected PESEL digits are invalid. Make sure the above data have been entered correctly.

Problems? Contact us:
801 244 357 (for landlines and mobiles)
+48 22 598 40 50 (for mobiles and calls from abroad)

Log in to Millenet

MilleKod

Log in >

> Problems logging in?

A message will be displayed after first and second failed login attempt. Additionally, we'll inform you once you have the last login attempt left. Thanks to this solution you'll more easily avoid locking your access to Millenet.

Second failed login attempt

MilleKod, P@ssword 1 or selected PESEL digits are invalid. Make sure the above data have been entered correctly.

Problems? Contact us:
801 244 357 (for landlines and mobiles)
+48 22 598 40 50 (for mobiles and calls from abroad)
